

## Save Costs and Build a Strong Budget for Your 2021 Equipment Spending

Across the globe, countries' economies have been severely impacted by the arrival of the Covid-19 pandemic, and we still are seeing and feeling the consequences. Because of the uncertainties brought about, many companies have seen great economic losses and have adopted new strategies to overcome the situation, such as cost reduction.

[Read Full Blog Post](#)

### Sell Your Used Equipment

- Running equipment at your facility generates maintenance costs
- Sale of idle equipment will reduce maintenance costs
- Opportunity for capital gain on the sale of your surplus assets

[Sell Now!](#)

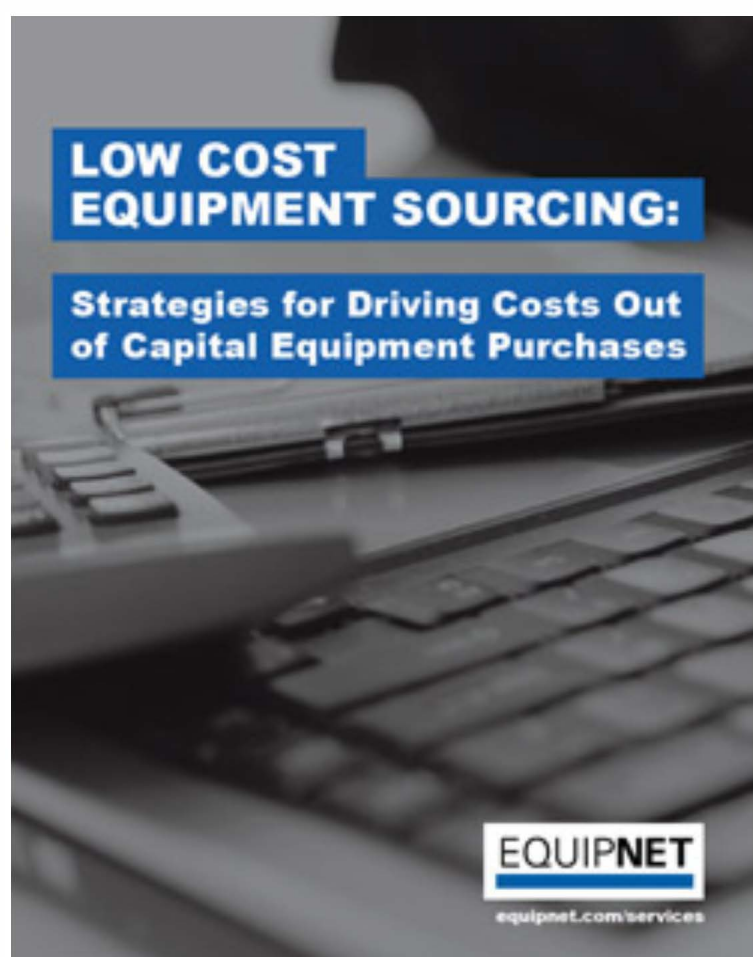

### Buy Pre-Owned Equipment

- Buying used can be up to 75% less than that of purchasing new
- The used equipment market can provide shorter lead time
- Inventory typically comes from well-known global manufacturers

## Featured White-Paper Low Cost Equipment Sourcing

Low cost sourcing programs are built on a simple premise: where possible, the company should source equipment from the lowest cost source of supply. But what are these sources?

Broadly speaking, best-in-class companies are looking to four sources of supply for their capital assets:

1. Inside the Company
2. Second-Hand Equipment Market
3. Overseas Suppliers
4. Traditional OEMs
